

CLEAN RIVERS PROGRAM

2012 CALENDAR OF EVENTS

This calendar includes Steering Committee meetings held by the Clean Rivers Program throughout Texas. All stakeholders are encouraged to attend these meetings and to contact the host organization for agendas and additional details. These meetings are designed to communicate updated information on water quality to the stakeholders, and to receive input from stakeholders on priority water quality issues in the basin. If there is a priority water quality issue in your area, you are encouraged to bring your concerns to the meeting for discussion and for consideration in the next year's monitoring plan.
